

Musée "Jouets et Merveilles d'Antan"

Museums

PEZENAS - Département

To get away from it all, you can walk at leisure through the 4 rooms (about 300m²) among the 6000 items of this astonishing collection (toys from France, Germany, Spain but also, Japon and America). There, you might find that are familiar to you, others you would have loved to own and others from another age.

Go back in time and keep dreaming.
